Fully-enclosed dynamic headphone, IPX-2 water resistant and rubbery elastomer earhooks

Colour

PRODUCT DETAILS

For sport lovers

Hit the ground running with the SE-E3, a super-comfy sports headphone that serves punchy sound at a nice price. Earhooks are made from supple elastomer that won't chafe when you're exercising.

This flexible material conforms to your ear-shape and keeps headphones secure for a good seal. Ear-tips in S/M/L sizes are included. Because the cable runs behind the ear, it's kept clear of your hands and doesn't bounce as much while you move.

Full-range dynamic drivers boost the beat as you work out with IPX-2 water resistance letting you train in most weather. Weighing 16 grams without cable, these affordable headphones fit like a glove and keep the tunes flowing as you stay in shape.

Audio features

- Full-range 10 mm Dynamic Drivers for Wide-range Sound Reproduction
- Easily Driven with Smartphone or Mini Audio Player
- High Sensitivity and 8 Hz–22 kHz Frequency Response
- Impedance: 16 Ohms
- Sensitivity: 100 dB
- Maximum Input Power: 100 mW
