Dolby Atmos enabled 3-way, concentric centre channel speaker (140W)

Style **STANDARD**

PRODUCT DETAILS

Get the ultimate Dolby Atmos Experience

Dolby Atmos is the latest audio platform for home cinema entertainment. With the right speaker set-up this technology will fill your room with astonishing clarity, richness, detail, and depth.

Created by world-renowned speaker engineer Andrew Jones, the S-C73A centre speaker adds a consistent sound signature to your speaker set as it utilises the very same concentric and bass driver as the S-BS73A bookshelf speakers. Its small yet elegant vinyl-black cabinet integrates seamlessly in any interior style.

To complete your Dolby Atmos speaker set-up, take a look at our S-BS73A bookshelf speakers and the S-FS73A floorstanding speakers.
