Lightning-powered Conference Speaker

Colour

PRODUCT DETAILS

Rayz Rally - Speak easy.

The first Lightning-powered portable speaker that turns your iPhone into a conference system loud enough to fill any conference room. Rayz Rally uses your iPhone's smarts to deliver clearer calls and bigger sounds.

It's a new kind of experience from a speaker that works effortlessly with your iPhone, iPod, iPad, PC or Mac, is small enough to fit in your pocket, and amplifies your call experience like never before.

Pocket-sized

Small enough to fit in your pocket. Next Gen Lightning Audio Technology enables powerful performance in the smallest of sizes.

Lightning-powered

Draws power from your iPhone, iPod, iPad, PC or Mac. No battery or charging required.

Talk and charge

Charge your iPhone, iPod or iPad, even while talking or listening to music.

Smart Button

Activate Siri. Play/pause your music, movies, and Podcasts. Mute/unmute phone calls. Do it all with one simple button.

Plug and play

Plug it into your iPhone, iPod, or iPad using the lightning connector, or to any PC or Mac using USB. The built in speaker and microphone automatically power on, creating an instant conference speaker experience. No set up required.

Companion APP

Software updates automatically delivered via the Rayz App keep you current with new features and benefits over time.

Audio features

- Type: Portable Speaker
- Frequency response: 100 Hz to 20 000 Hz
- Driver unit: 30 mm
