157905

SRP 249,00 €

Power Micro System with FM tuner, CD, USB, and Bluetooth

Style PR VERSION, **STANDARD**, ACT VERSION, UK VERSION

PRODUCT DETAILS

Force and finesse.

With 2 x 75 Watts pumping through its speakers, the X-PM32 power micro system likes it loud. But it's not just loud, the sound is also crisp and clear. A passive radiator on the side of its speakers further enhances your music with a kicking bass sound. Combining power with sturdy looks, the X-PM32 has a robust black design and a sleek aluminium finish - made to fit any interior style.

Whatever music source you prefer, the X-PM32 grants all of your wishes. For your digital devices, like your smartphone, this system supports playback via USB and Aux-in. Connect virtually any Bluetooth device and enjoy wireless audio streaming. Last but not least, it allows you to tune into FM radio or slip your favourite CD into the front drive.

Play digital and analogue music

Plug in a USB device to play digital files such as MP3 and WMA, or use the Aux In to plug and play your favourite analogue music stored on another device.
