PRODUCT DETAILS

Rich, high-quality sound from a compact body
The C4´s sensitive 8 mm rare-earth magnet drivers increase audio resolution, deepen bass and clarify high- and mid-range sound. The Ear Direct Mount Structure aligns driver and nozzle directly into the inner ear for improved bass response, sound isolation and fit.

Voice interaction at the touch of a button
Stay wirelessly connected to phone calls and smart assistants by voice. A single button activates the mic so you can chat on the phone hands-free and ask your voice assistant for help without touching your phone.

Listen longer, charge faster
The efficient battery offers a maximum of 6 hours of playback with every 1.5-hour recharge. Enjoy music wirelessly without having to worry about battery life.

Inline remotes put you back in control
Three buttons and mic put you in control of music and life, changing volume, skipping songs, making calls and enabling smartphone voice-assistant functions. Perform a range of tasks using large buttons and your voice.

Multi-Point Function pairs two phones
The Multi-Point Function lets you connect two smartphones at once. Take calls with one phone and listen to music with another. An easy-to-manage solution for people with business and private phones.

Exclusive Pioneer Notification App
The exclusive Pioneer Notification App for Android reads out text-based notifications such as text messages, which is great if you can´t reach your phone right away. Configure the app to read out breaking news, emails, calendar updates and more.
