PRODUCT DETAILS

THE QUALITY MICRO SYSTEM THAT ENABLES YOUR SMART PHONE TO PLAY ALONG

Whether in black or silver, the brushed aluminium look of the X-HM 26 gives this micro system timeless nobility that won't lose its shine for years to come. So it is good that the CD receiver also supports modern music sources in addition to the traditional media of FM radio and CD: the USB port on the front provide convenient docking for memory sticks may with MP3 music collections, while the built-in Bluetooth unit enables wireless streaming from your smart phone. So your music apps accompany you to your workplace, guestroom or bedroom – a place for an X-HM 26 can be found everywhere. Regardless of the set-up and the source being used, the two-way speakers in interaction with the P-bass function, equaliser and tone controller always guarantee adequate sound. The sleep and alarm functions of the X-HM 26 quickly become must-have features in everyday life. In the night position you can have the EQ gently lull you to sleep at night and be woken up discreetly in the morning.
