PRODUCT DETAILS

Simplicity. Finesse. Performance.

The A-30 Direct Energy Design amplifiers with Symmetrical Construction offer class-leading, high quality sound, wrapped in understated, technical elegance.

The brushed aluminium front panel comes with polished-black, aluminium control knobs for Volume, Bass / Treble / Balance and Input Source adjustments, whilst a selection of blue LED buttons fine-tune Loudness, Speaker A/B, Power Amp Direct and confirm your choice of Input Source.

The rear panel is designed to meet the audio requirements of multiple systems and provide immediate connectivity to Aux-In, Network, Recorder, Power Amp Direct, Speaker A + B and 'Source Direct Mode' devices.

Exclusive to this mid-range model:

- Symmetrical Construction
- Clean Ground Construction
- Power Amp Direct Mode
- 5 tactile keys including Power Amp Direct
- A trans-stabiliser
- 12 blue LED indicators
- Motorised aluminium Volume Knob.
