243993

SRP 149,99 €

Completely wireless headphones that sit tight and help you accomplish your fitness goals with powerful sound - no wires, no stress.

Colour

### PRODUCT DETAILS

#### Free to focus on music and movement

Introducing truly wireless earphones that won't come loose as powerful sound accompanies you on your fitness journey, no cables, no stress. The tech-packed E8 fit perfectly with Secure ear fins (supplied in three sizes) locking them in place. Ear Direct Mount Structure aims driver and nozzle into the inner ear for improved audio response, while rare-earth-magnet drivers and support for the AAC codec energize your music. The E8s are IPX5 water-resistant and include Ambient Awareness earphone tips to keep you safe. Playback control, call management and voice assistant interaction come hands-free via Multi-Function Button, while the Pioneer Notification App for Android can read out mail and more on the go.

#### Experience truly wireless sound

The E8s are truly wireless, with no cable connecting L/R earphones. Dive right into the music and feel your body rhythm while jogging, training or exercising - free from cable distraction.

#### Stay glued to your tunes

Three pairs of secure ear fins are supplied in sizes S/M/L, guaranteeing a perfect fit for your ear size and shape. The fins fit over the headphones and lock them in place, making it virtually impossible for them to fall out while exercising.

#### Smart features designed for athletes

Ambient awareness earphone tips keep you in touch with the world while maintaining musical immersion. The tips feature three narrow slits that allow low-level ambient sound into the ear, keeping you safe. Athletes will also love the earphones' hands-free Multi-Function Button, which lumps playback, phone and voice-assistant functions together.

#### Extended playback with compact carry case

Internal earphone batteries provide a maximum 3 hours of continuous connection (including audio playback) on a single charge. The supplied carry case can replenish earphones twice on-the-go, extending your listening time to about 9 hours. Shake the case and LEDs will display the remaining battery life.

#### Heart-pounding performance

Elevate your endorphins with 6 mm rare-earth-magnet drivers. Controlled bass ramps up the power in your music, while AAC codec improves sound quality further. Ear Direct Mount Structure features angled drivers and nozzles that direct sound straight into the inner ear, avoiding damping issues. Instead,

sound is clear, detailed and dynamic.

### **Exclusive Pioneer Notification App**

Pioneer Notification App for Android reads out notifications such as e-mail, SMS and messages. It's great when you can't reach your phone during exercise. The app can alert you to calendar updates, read the latest news headlines and more.

## **Specs**

### **Product Attributes**

EAN:	4573211156997
Manufacturer number:	SE-E8TW(H)CZU
Product weight:	0.144 kilograms

### **Dimensions and Weight**

Product weight:	0.144
Packsize height:	14.8
Packsize width:	8.5
Packsize length:	5

### **Headphone features**

Headphone type:	In Ear
