

Bordeaux Red Powder Pink Mint Green Deep Blue All White Charcoal Black

SE-C1T (R) Bordeaux Red

Move to music in style

Play your music free and clear with the Pioneer C1s. These compact earphones are made for fun sound on the go. Large dynamic drivers love bass and have a clean mid-range for vocals. Drivers and nozzles are specially angled to send sound directly into your inner ears. This structure also helps the C1s stay in place, and for the earphone tips to insulate against noise. You'll be surprised how great they sound, and also at their high-value features. The thick, durable, tangle-resistant cable has a remote button to make, take, and end calls; there are six matching color schemes to choose from; and the earphones come with three sets of earphone tips for a comfortable fit.

Smooth bass, compact size

Enjoy smooth bass and clear mid-range response from large, sensitive ϕ 9 mm ($1\frac{1}{32}$) drivers built to express the energy in music. Designed in Japan, the C1s bring balanced, high-quality sound to a chic minimalism that fits your style.

Ear Direct Mount Structure

Earphone drivers and nozzles are angled to aim sound directly into your inner ears. As well as fitting and sealing better for improved bass and isolation, the Ear Direct Mount Structure also boosts overall sound quality. Feel comfortably immersed in every song you play.

High-sensitivity ϕ 9 mm ($1\frac{1}{32}$) driver

Ear Direct Mount Structure has angled nozzle and driver that aim directly into the ear.

Thick, durable cable with remote

The C1s feature a thick, tough, and durable ϕ 2 mm ($\frac{3}{32}$) cable that's less prone to damage during life's rough and tumble. It also resists tangling when stuffed in your pocket or bag. A simple inline remote with mic lets you make and take calls easily hands-free.

Beautiful color unity

These earphones have coordinated color schemes. The earphone bodies, earphone tips, and cable are a similar shade, and they come in a choice of six colors, including classic black or white as well as pastel and vivid shades.

AUDIO FEATURES

- › Large ϕ 9 mm ($1\frac{1}{32}$) enclosed dynamic driver
- › High-sensitivity driver for clear mid- to high-range sound
- › Smooth bass response from single full-range drivers
- › Ear Direct Mount Structure improves clarity and immersion
- › Enclosed dynamic driver housing design insulates against noise

INDUSTRIAL DESIGN

- › Unified color scheme for earphone, earphone tip, and cable
- › Ear Direct Mount Structure for a firm and secure fit
- › Lightweight, compact, and comfortable
- › Includes three pairs of silicon earphone tips to fit any ear (S/M/L)
- › Inline control box and mic for smooth phone conversations

HEADPHONE CABLE

- › Thick, durable, tangle-resistant ϕ 2.0 mm ($\frac{3}{32}$) cable

- › Compact inline control box with mic and call accept/end button
- › 1.2 m (4 ft.) cable with tough L-type 4-pole headphone jack

SPECIFICATIONS & ACCESSORIES

- › Type: Fully enclosed dynamic headphones
- › Driver: ϕ 9 mm ($1\frac{1}{32}$) dynamic driver
- › Impedance: 16 ohms
- › Frequency response: 10 Hz–20,000 Hz
- › Sensitivity: 100 dB
- › Maximum input power: 100 mW (JEITA)
- › Weight: 4.6 g (0.16 oz.) not including cable
- › Cable type: 1.2 m (4 ft.) with ϕ 3.5 mm ($\frac{1}{8}$) 4-pole stereo mini-plug
- › Supplied with S/M/L silicon earphone tips, user manual, and warranty card

Package dimensions (W x H x D):
55 x 168 x 28 mm (2 $\frac{1}{32}$ " x 6 $\frac{5}{8}$ " x 1 $\frac{3}{32}$ ")
